PROFILE

Motivated third-year Computer Science Engineering student with hands-on experience in web development. Skilled in HTML, CSS, JavaScript, and React, with a track record of building responsive and user-friendly websites. Proven ability to collaborate with teams and deliver high-quality projects through internships and academic work. Passionate about leveraging technology to solve real-world problems and continuously enhancing my skills. Seeking opportunities to contribute to impactful web development projects.

INTERNSHIP EXPERIENCE

Codsoft

JUL 2024

Web Developer

- Developed and maintained a responsive landing page for a gym website using HTML, CSS, and JavaScript.
- Created a professional portfolio website to showcase projects and skills, focusing on design, responsiveness, and user experience.
- Built an interactive calculator application, implementing core functionalities and enhancing problem-solving skills.
- Collaborated with the design team to implement UI/UX enhancements and ensure cross-browser compatibility.
- Gained hands-on experience in front-end development, including DOM manipulation, event handling, and creating modular code components.

PROJECTS

- **Landing Page (Gym Website):** Developed a responsive and visually appealing landing page for a gym website, utilizing HTML, CSS, and JavaScript. Gained hands-on experience in creating clean and efficient code, implementing user-friendly navigation, and ensuring cross-browser compatibility. Enhanced skills in designing layouts, integrating multimedia elements, and optimizing page performance for a seamless user experience.
- **Portfolio Website:** Created a professional portfolio website to showcase projects and skills, applying HTML, CSS, and JavaScript. Learned to design and implement a cohesive and visually engaging user interface, with a focus on responsiveness and accessibility. Developed proficiency in structuring content, managing styling with CSS, and adding interactivity using JavaScript to provide a dynamic user experience.
- **Calculator Application:** Built a functional and interactive calculator application using HTML, CSS, and JavaScript. Strengthened problem-solving abilities by implementing core functionalities such as basic arithmetic operations and error handling. Acquired practical knowledge in DOM manipulation, event handling, and creating modular and reusable code components, contributing to a deeper understanding of front-end development practices.
